

AVGC Rimfire & Centerfire Bench Rest

Every 4th Sunday

0800 - until finished (usually well before 12 noon)

Primarily Rimfire, but may incorporate Centerfire if the interest is there.

Rimfire is shot at 25 & 50 yards on regulation Benchrest & ARA targets as well as some fun targets - a favorite target is a facsimile of approx. 25 flies - shoot the most flies to win!

Centerfire is shot at 100 yards on regulation and unconventional targets.

May shoot for smallest group or score dependant upon course of fire.

This is an excellent way to learn wind reading as we have wind flags set up and the standard velocity .22 LR cartridge is wind sensitive. A 4X correlation can be made between the .22 LR and .308 Win. cartridges - ie: at 50/100 yds. with a .22 LR = 200/800 yards with .308 Win.

You will see a variety of rifles & scope combinations and be amazed at the precision shooting possible. If you are not sure about what to bring or buy - come out for some free advice & you may be invited to shoot a few rounds!

As are all our competitions - they are held in a friendly & helpful atmosphere of camaraderie of like minded individuals with an interest in firearms and precision shooting.
